Until some reason more substantial and convincing than has yet been given is produced, the Whig masses will stand by the Administration with an unfaltering de-votion; though impracticable and disappointed politicians may array themselves against it. In this State, where Mr. Fillmore is assailed with unequalled virulence by a disappoinfed press, is this eminently true. Though here great efforts are making to separate the Whigs of New York from Mr. Fillmore and the Administration, they have seen nothing to justify the attempt, nor is there any perial Teas, 35 to 50c. prospect of the success of the scheme.
